"TO RULE THE WAVES IS A RIVETING STORY TOLD BY A MASTER HISTORIAN." —VICTOR DAVIS HANSON,
LOS ANGELES TIMES BOOK REVIEW

T*o Rule the Waves* tells the extraordinary story of how the British Royal Navy allowed one nation to rise to a level of power unprecedented in history. From the navy's beginnings under Henry VIII to the age of computer warfare and special ops, historian Arthur Herman tells the spellbinding tale of great battles at sea, heroic sailors, violent conflict, and personal tragedy—of the way one mighty institution forged a nation, an empire, and a new world.

"An engrossing tour de force, like the Royal Navy itself. . . . Arthur Herman's well-written, engaging storytelling shows the British navy's geopolitical impact commanding the seas."
—*Richmond Times-Dispatch*

"Arthur Herman's excellent history combines thrilling accounts of battles, like those brought to the big screen in *Master and Commander*, with a terrific strategic analysis. He reminds us that the sea unites distant and faraway lands."
—*New York Post*

ARTHUR HERMAN is the author of the *New York Times* bestseller *How the Scots Invented the Modern World*. He has been a professor of history at Georgetown University, Catholic University, George Mason University, and the University of the South.
